Report of School Board.

We present our annual school report with results very much the same as those of previous years.

We are well aware that our schools are too small to meet with best results, yet we have not been able to make any material changes.

Also to make use of the limited amount of school money we were obliged in some cases to hire teachers of limited experience or have very short schools.

The returns of the truant officers give number of children between the age of five and sixteen, as fifty-two; twenty-four boys and twenty-eight girls.
